PROFESSIONAL SUMMARY

Result-driven Software Engineer with experience in full-stack development. Expertise in java, Python, and cloud computing with a track record of improving system performance by 40%. Passionate about building scalable applications and optimising backend processes.

TECHNICAL SKILLS

- Programming Languages : Python, Java , C++, Javascript, PHP, SQL
 - Frameworks and Libraries : ReactJs, ExpressJs, Bootstrap, Tailwind CSS, jQuery
 - Databases & Cloud : MySQL, MongoDB, MongoDB Atlas, Oracle, AWS
 - Tools & Technologies : NodeJs, Git, Postman, Vercel, REST APIs, Linux, Agile, SDLC
 - Core Concepts : API Integration, Data Structures, Object-Oriented Programming
-

WORK EXPERIENCE

Software Developer (Freelancer) | Upwork | Toronto, ON | Sep 2025 - Present

- Developed a web app that increased customer engagement by 40%.
- Reduced system downtime by 25% by optimizing the backend process.
- Led a team of 5 developers to successfully deliver a project ahead of schedule.

Full Stack Developer | ThinkSwift | Toronto, ON | Dec 2024 - Aug 2025

- Developed a full-stack Client Portal, increasing client engagement by 35% through improved user experience and functionality.
- Led the end-to-end SDLC within a 4-member Agile team, resulting in 20% faster project delivery and a more efficient release cycle.
- Integrated a secure user authentication system and implemented Stripe payment gateway, enabling the processing of over 5,000 secure transactions monthly with zero reported payment issues.

Junior Software Developer Intern | Honasa Limited | Delhi, India | Aug 2022 - Dec 2022

- Developed and deployed a responsive job portal using PHP and MySQL, serving 10,000+ users.
 - Designed and documented system architecture and workflows to streamline development.
 - Improved performance and stability by resolving critical bugs and conducting thorough testing.
-

VOLUNTEER WORK

Community Tech Volunteer | Toronto Public Library | Toronto, ON | 2025

- Configured and maintained public computer workstations, ensuring software updates, antivirus protection, and accessibility features were in place for an optimal user experience.
- Collaborated with library staff to create user-friendly guides and digital tutorials to support ongoing community tech education initiatives.

- Delivered hands-on workshops on introductory programming concepts using beginner-friendly coding languages (such as Scratch or Python), tailored especially for youth participants to foster early interest in technology.

First Year Experience Facilitator | Humber College | Toronto, ON | 2023 - 2025

- Mentored and supported over 100 first-year students through group sessions and peer guidance.
 - Led discussions and activities to promote student engagement and community building.
 - Collaborated with a facilitation team to organize orientation and transition programs.
-

EDUCATION

Postgraduation | Humber College | Toronto, ON | 2023 - 2025

- Postgraduate Certificate in Information Technology.
- Completed with honors.

Bachelor of Computer Applications | Trinity Institute of Professional Studies | Delhi, India | 2019 - 2023

- Graduated with distinction
 - Specialised in Computer Science
-

PROJECT

Dog's Hut | Founder & Developer | Toronto, ON | Present

- Currently developing a full-stack platform aimed at supporting new dog owners with educational resources, tools, and local service directories.
- Building the frontend using React.js and Tailwind CSS, with a backend architecture powered by Node.js, Express, and MongoDB.
- Designing core features such as a vet/clinic locator, breed-specific care guides, and a personalized onboarding system for first-time dog owners.
- Integrating APIs and planning for scalable deployment using Vercel and MongoDB Atlas.
